

A Level Revision 2017/18 – Revision Expectations

- In order to maximise your chances of success in the summer exams, revision needs to start **NOW**.
- The expectation is that you **will prepare for all** your subjects fully by using the materials offered by your subject teachers, after school revision sessions, homework set, but most importantly your **own revision, in your own time**.
- The revision needs to be active and can be in the form of pair work, watching videos, using the internet, highlighting revision booklets, attempting past exam papers, reading through your books, making revision cards, notes, MP3 clips, etc. What ever suits you best will help make the difference.
- With only **a few full teaching weeks before mocks**, we are expecting you to spend at least **1 hour revising** on a week night and a total of at least **2 hours** at the weekend.
- Once you complete some revision in your own time, you will **record the subject revised** and for **how long**, using the grid provided. This does not include lunch time or after school revision by your teachers.

Revision... Where to start?

The top tips for revision are...

1. Revise **in small chunks, giving yourself a short break after 40-60 minutes**.
2. Find somewhere that you will be able to **concentrate and not be distracted**. Listen to music, get a drink and snack, settle down, then get on with it! **Don't keep putting it off!**
3. Turn **phones off**, close all social media, unless being used for revision, so you can **fully concentrate**.
4. **Get organised**. What do you need to revise from? When are you doing what subject or topic? – do you need a revision plan? **Do NOT leave it until the last minute**. Exams are earlier this year, so be prepared. Try to do revision at the **same time**, so a **routine develops**.
5. Revision material such as past papers, mark schemes and sample answers can be sourced from the exam boards websites. (AQA, OCR and Edexcel)
6. **Believe in yourself. Do not worry about other people or put unnecessary pressure upon yourself.**

Subject Priorities

List your subjects that you are studying, along with your target grade. Next to this outline briefly what you need to do or prioritise to improve your chances of success (next step).
